Description:	FX9600 Forklift Mounting Bracket: Launch Announcement
Reason for Change:	PMB-10396: Announcing the Launch of Forklift Mounting Bracket for FX9600

1. Introduction

As Zebra continues to see RFID adoption grow outside of the retail space and move to more manufacturing and T&L applications, we want to be at the forefront enabling our partners and customers to use our products in new use cases that can help drive increased automation and efficiency. Thus, we are proud to announce a new mounting bracket that provides protection from shock and vibration for the FX9600 fixed RFID reader. This bracket allows the FX9600 to be mounted to a forklift, or any other vehicle that doesn't have rubber, inflatable wheels/tires and experience excessive volumes of shock.

This bracket is available globally and supported on all configurations, both 4-port and 8-port models of the FX9600.

NOTE: Certain vehicle applications that are used on vehicles with rubber, inflatable wheels/tires may experience significant amounts of shock and may require the use of this bracket.

IMPORTANT: This mounting bracket is not certified for railway use cases.

2. Configurations Available for Booking

Part Number	Description	Discount Group	List Price	Planned First Book Date
BRKT-FX96-SVMP-01	SHOCK AND VIBRATION DAMPENING MOUNTING BRACKET FOR FX9600	R1	\$449	Currently Available
